Problem-solving: our proposal!

- **Our service target:** University students (18~23 years, either in public school and private school), especially those who are fed up with boring and useless classes.
- We, YACA, know that some of the university students are suffering from the meaninglessly fixed college course requirements. They just don't want to waste their time on those classes which can be General Education class (GE), selected class (SC), and particularly required class (RC). Plus, they want to spend their time on more meaningful events outside of the campus, exploring the brand-new life where they do not have to struggle and are privileged to give everything they think of interesting a hard try. YACA can help, legally and effectively!

- We have experts of different academic background.

Trust Signals

Ha-ha! I no longer have to take British Literature, because YACA helps! And, I make use of my time to travel around the Taiwan. What a better way to broaden my horizons than staying at school studying those poems and plays. Recommending it! What are you waiting for? Go sign up immediately!

OH MY GOODNESS! How luck I am to encounter my best friend, YACA! They helped me with those stupid presentations and tasks in TESOL class. I then can take more time to study linguistics that I appreciate. Thanks to YACA, the time wasn't wasted, and I got my linguistic project done in just 2 months! I must suggest all of you in need go enroll for this amazing assistance.

Charity we contribute to...

- We, as a helping assistant, also care for the minority in the society.
- So, we will employ a certain percentage of people who would like to study and improve themselves, yet unfortunately coming from underprivileged families. As they join us, we will ensure their proper training together with the chance to experience what it is like to be a college student.
- Additionally, we will donate on a regular basis. Where there is an urgency for help, we volunteer to help.

The way to get started...

- Please contact us via **LINE** (ID: YACA_CAN_HELP), or through **email** (Address: yaca_can_help@gmail.com).
- We will reply to you ASAP once we receive your query.
